

# Texas History Mystery

## Statewide 4th/7th Grade Videoconferencing Project

May 2009 11-15,  
Deadline to register: May 1, 2009

Looking for a way to enrich your  
Texas history lessons?

Join other classrooms throughout our great state for  
an interactive videoconference event.

Each classroom delivers a prepared 10-minute presentation with clues about any significant event, person, invention, activity or location from Texas' rich past. You may use skits, songs, still images and/or original artwork. Creativity is encouraged. After each class presents their "History Mystery," students work as a team to research their partner's clues using any/all available resources: notes, print, on-line. After the allotted research time, student have an opportunity to ask their partners three yes or no questions. If necessary, a re-evaluation period is granted before the mysteries are guessed and revealed.
